

## Fort Keogh Livestock and Range Research Laboratory

### Location

Mile City, MT

This project included work in several areas and different types of construction. The total project consisted of approximately 17,300 square feet of new construction and renovation. It included a 9,920 square foot expansion of their laboratory space, 2,250 square foot renovation of their existing nutrition laboratory, a new 3,200 square foot addition of a Technology Transfer Center, a 1,206 square foot addition of a new head house connected to a 720 square foot state of the art greenhouse, and a complete site work package including a new parking lot.
